# The Madrona Paper!

Written by the student's of Madrona k-8! September/october, 2018. Vol.1, #1

## Election

By Aaron G.  
[giebear000@edmonds15.org](mailto:giebear000@edmonds15.org)

Will be different this year. There was no president, vice, or anything. This year all the students became a council. We will reveal the elected in next month's paper. We will see how this plays out, but the teachers are positive this is a better way. They say that each student will get an equal part in the council, See **ASB, page 3**

## First Day At New School

After The District's recent dispute with Olympic View water company, Children were to start School at the former alderwood Middle. Most think this is a drag, but at least it's a step up from last year's school. Other's hate or love the new location. It was an adjustment for children this year, but still an upgrade from a 1963 building to a 1966 building. **For More Info, Please visit PAGE 3**

## Madrona Get A New Logo, Shirts For Sale

Madrona K-8 has a new logo with a unique style. The shirts are on sale at [squareup.com](https://squareup.com), and they seem to come in many varieties. The school also had morning coffee the first day of school. For better written information written not by kids, visit these two sites:

The new logo symbolises excitement, rather than an angry bear. I, personally, Approve this logo, and think it's an upgrade from the previous bear. (upgrades seem to be a theme this month!), and all money will likely go to the madrona MIT.

## Madrona Cross country kicks off

Madrona has begun Cross Country, and I wish them good luck against the infamous maplewood k-8. Sixth graders will run a separate race, and then seventh and eighth. Who ever gets 13th place wins the game. Below is a taken from the bear facts site:

The gym is small, the science room is an upgrade, and the lunchroom is considerably small

and the field is a decent size. In conclusion, a lack of a large gym, lunch room, and even a lack of bathrooms shows that this may not be the best situation, but a new school is coming in just a few months, and still even though you might think this is great, it is. People in poor parts of the world would call this lugerly, plus it is a HUGE upgrade from being able to peel the cement between the bricks, and even whole bricks off from our old school.

Kindergarten started in a new school this year. The teachers are ms. Lim, Asim, and Rust. We look forward to watching the little ones go from learning abc, to reading simple stories, and writing simple words on their own.

Primary had quite an adjustment this year, to. Students of PSC, SND, Elmundo, and Ohana did various activities in the beginning of school, and continue to grow. SND's nancy retired, and was replaced, and SND became City Center

Intermediate had a fantastic start of the year. Soleil teachers are discussing changing the class name, Summit's Asim left to teach kindergarteners, and Cassie, formerly of soleil, and another

school, became a teacher of summit.. Zenith (formerly fusion and before that da vinci) seemed happy, and so did renaissance.

Middle School moved over to the new building, and portable- like classes. Sixth grader's left Intermediate to become 7th graders, and 8th graders left behind their fond memories of the original madrona k-8.

instead of it being dominated by the president. Primary and Intermediate will have Open representative positions, and the 2018 The change is inspired that in the last four years, only one president has been active in ASB. The student council candidates will use three posters for when they run. Two years ago, primary, intermediate, and middle school got to vote. Then only intermediate and middle school, and now only middle school gets a vote this year. Once elected, the counsel members must work hard, or they must leave office. They will also meet ASB from other schools, and discuss issues, and how to make the schools a better place. The theme this year: More responsibility, and NO slack. We hope six qualified members will be a new, better ASB. Here is a brief summary of the runners. 1. Moci. Moci strives to make the school a better place. 2. Russel or Russ. Russ claims to be a natural leader. Stays on task. In russ we trust. 3. Amelia claims to volunteer, babysit, and has other leadership ability. Her quote is be a smarty, and fote amelia for student body. 4. Deaf student Elana is very interested in ASB. Wants to help Good at math and teamwork. She says vote for me. 5. Zoe claims quoting michael scott from the office, works to hard, too much and is too invested in her job. She looks forward to helping in Madonna's Events 6. Maggie claims to always get things done. Her quote: i'm 5'2 and i'll represent you! 7. Lowata has previous ASB representative experience, and four years of it. She claims to be organised, and passionate about her job. She wants to help the school community. 8. Honor claims to speak up. Though she lost in running last year, the thinks she can pull it off now. 9. Sage claims to be very persevering and will try to listen and understand. She writes fast notes. 10. Wasabi claims to desire to bring more diversity into our school. 11. Makensie claims to want to return the favors her friends did for her by paying it forward, and not just sit back on her job. She wants to end her family's legacy strong, which started in 2005! Guess who won? The ones that put the most effort into speeches were the ones who won. I'll let you decide for yourself if you already don't know, who won the asb 2018 election.

## Busses arrive at children's homes late

By Aaron G. - [giebear000@edmonds15.org](mailto:giebear000@edmonds15.org)

Though last year's parking lot was TERRIBLE, this year's tiny classic 60's lot made the old one seem like heaven. For about half a mile of road, cars and busses with anxious people sit for half an hour. Busses arrive late, and children sometimes don't get home till 4:30.

"I'm fed up with the School district", a local mom said, "I'm about ready to go to a private school", others say. There is a huge chance of an accident, and I can't believe that hasn't happened yet!", said another. The new School better have a good sized parking lot, that's for sure.
