🎃 The Madrona Paper! 🎃

Written by the student's of Madrona k-8! October/november, 2018. Vol.1, #1

Fun Run

By Aaron G.

giebear000@edmonds15.org

Photo is by Logan Jacques, from the triathlon. The bear feet funrun of 2018 Got off to a great start. Intermediate and middle school ran around the track, and primary inside the track. Kindergarteners ran around the cones. The center with the most laps run was Soleil at 500. Soleil was not the center with the most laps for person, though. They also took home the most spirited award. Music blasted and kids ran. I know you would expect a longer article on such a big event, but I think I can't explain this better.

Important: We are planning to move into the new school on JANUARY 7TH.

Sneak Peak at new School By Aaron Giebel

New School Photos by Aaron Giebel

giebear000@edmonds15.org

I was Honored with the privilege of touring the new school with the staff to write in the paper. I went on a tour so I could inform you of what is to come. First, I'll tell you some of the cool stuff. We will have flat screen TVs, we will have programmable doors that lock automatically. We will have private bathrooms and we will have our new logo in the center of the gym. Most of the classrooms have a separate sink room and bathrooms. There are lots of windows, the whole entire wall is covered with them. Laws say that there cannot be a den anymore. Instead of lockers, we will have cubbies. There are acoustic walls for the music room, And the classrooms will not have any indecent lights, and For more info, visit page 2

will be very bright, good for cloudy days. I'm

Sorry about the photo quality, It was very foggy out. I added more contrast to the photo so you could see it a little better. I was not there for the whole tour, because we had to do other things. The last thing I heard was that we would have strawberry plants in the courtyard. They will not fruit because we don't want to encourage wild animals and/or kids to eat them. We will have a slanted roof near the courtyard which will produce a small waterfall for our enjoyment, and a little pond when in the rainy season. The school has all kinds of comforts. Two science rooms, stuff like that. Almost every classroom will have a sliding glass door to divide each half, and a separate room to wash their hands. The cafeteria will be huge, with an open space and a hallway for more room, plus a enclosed area outside to eat.

Triathlon

By giebear000@edmonds15.org

Madrona middle school students had a blast competing in running, biking, and burpee challenges. Students tried to see which team could run around the track the fastest or bike three fourths of a mile fastest. Or who could do twenty burpees in correct form fastest. Here's seven photos from Logan Jacques.

Editor's note: Some errors may have gotten past me. Email constructive complaints and/or suggestions mimicyr000@edmonds15.org Will start to write articles in the next issue .

Comic Contest!

We need a cartoonist for the school newspaper. Every month, you must make one cartoon. We want a good photo of YOUR work. Email to become the **CARTOONIST** of the year. We have the right to switch cartoonists every so often. Or if you don't want to email, sketch your cartoon in the form to your side. Cut it out, and give it to a newspaper staff member, or place it on a newspaper stand when they come.

MS CAMP

By Aaron Giebel giebear000@edmonds15.org

Madrona Middle school, and intermediate went to Cedar Springs camp. Intermediate went for two nights, and middle school for one. Intermediate focused on learning, and middle school challenge by choice. For middle school, they got to ride a 35 or 40 ft. Zip line, a giant swing that reaches a max height of 55 ft, and the flying squirrel, similar to the giant swing, but at a max height of about 35 ft. The child people ate at the dining hall. They would play games/ meet up at founders hall. Besides the swings there where many varieties of activity, including the low x, and the mow hawk walk. Steves homeroom broke records when they got 16 people to the end of the mohawk walk. Next, there was a spider web challenge, whale watching balance challenge, and more. Food included ham, cinnamon rolls, pineapple, cereal, mac and cheese, chicken burgers,

etc. Overall, Better camp food than I expected. Way better food. In My cabin (19) I couldn't sleep because of all the snoring! Over all, I think camp could be better, but it was just fine for me.

Bear Scare coming in late october

giebear000@edmonds15.org

The bear scare is coming up in late october. Go to the bear facts site to learn more. The Madrona paper will write about this starting in the next paper, so we can release our paper before november.
